@ArkCircuitry

No minimum quantity

Rigid, Flex or rigid/flex PCBs

Custom design and build

Surface Mount Technology or Through-hole soldering

End-to-end automation

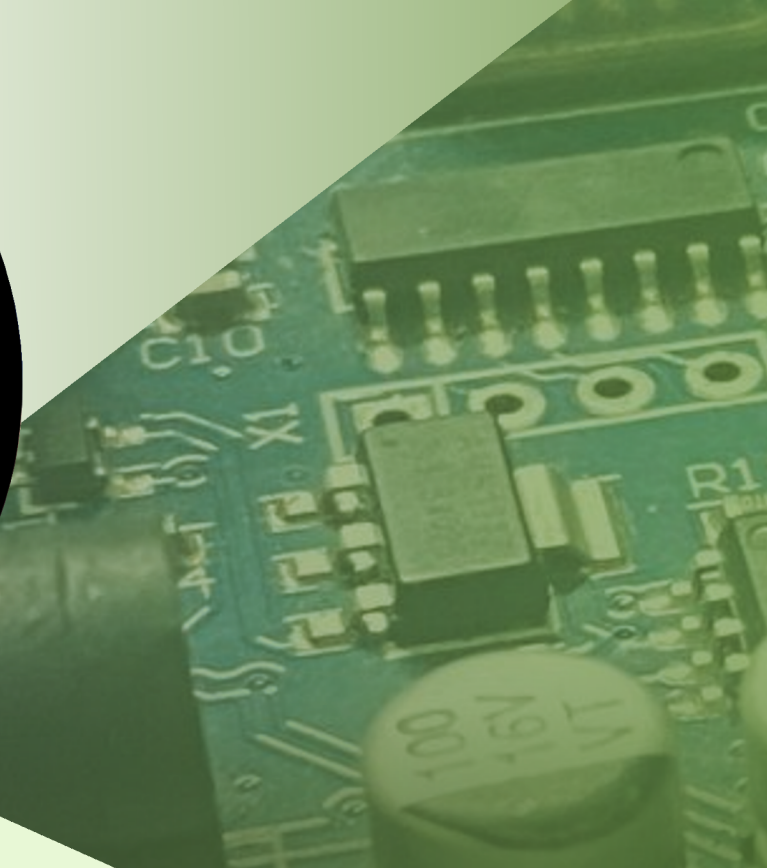

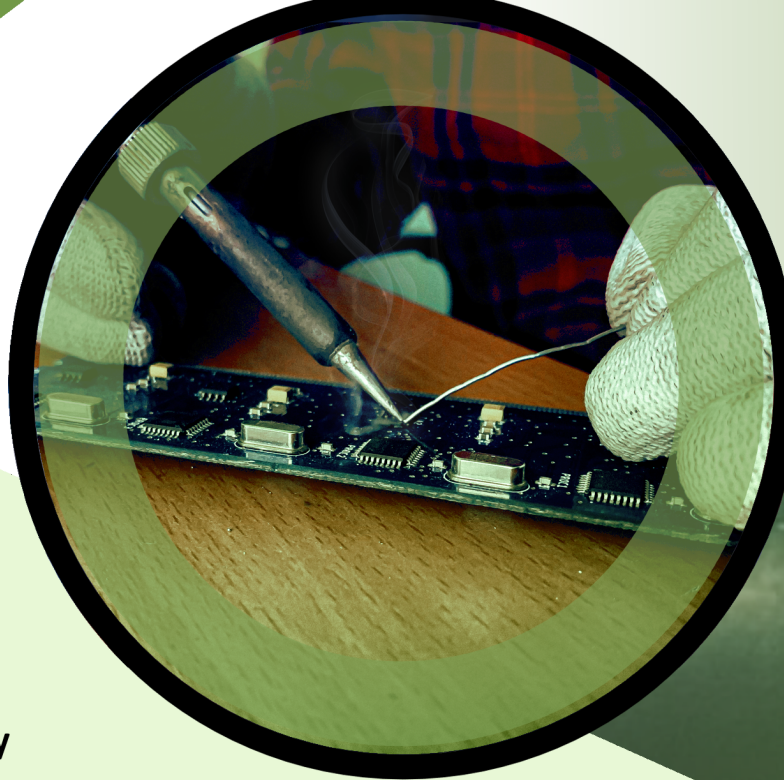

Delivery: 24Hrs onwards

Single to multilayered PCB

Component Sourcing and

Procurement

Full System Integration

PCB Assembly Services:

Custom-design and development
PCB Capabilities: Rigid, Flex or Rigid/Flex
Soldering: Surface Mount Technology (SMT), through-hole or mixed technology
Single to Multi-layered PCBs
Cable and Wire Harness assembly
Turnkey Assembly

Mechanical and Design Services:

Industrial Design
Rapid prototyping
Box-Builds
Product packaging design

Custom Build Services:

Full System Integration
Electro-mechanical Assembly
Installation of PCBA
AC & DC power units
Digital Interfaces
Audio/video
Insulation displacement
Routing cable and wire harness assemblies

Value-added Services:

Component Sourcing and Procurement
R&D services
Firmware Development
Software and Mobile Application Development
Part-fit test
Environmental testing
PCB Rework
